

LIBRA

7,500mg/hr Mobile Ozone Generator

Electrical Specification

- Input voltage: 230V, 50Hz
- Input Power: 150W
- Air Flow Rate: 300m³/h

Performance

- Ozone Output: 7,500mg/hour
- Up to 10ppm of Ozone in 300 m³ room

The Libra Ozone generator is the global leader in its performance class. The Libra is a rugged and fully transportable ozone generator designed for use in the professional cleaning market. It is also used by restoration companies performing sanitisations and deodorisations to eliminate bacteria, viruses and odours from smoke or flood damage, moulds, mildew and sewage. The Libra utilises a unique patented double dielectric barrier discharge technology to achieve an industrial leading ozone output of 7,500 mg/h under ambient air conditions.

The Libra can produce high levels of Ozone ideal in treating large or small areas where odour contamination is a problem. It is well known that ozone is one of the most powerful sanitizers and odour removing chemicals. Ozone is over 3200 times more effective than chlorine gas. In small areas can be used to sanitise the room

Ozone will eliminate virtually all smells and odours as well as mould spores. Ozone also kills most bacteria and viruses including MRSA, Norovirus, Pseudomonas Aeruginosa, E-coli 157, Legionella Pneumophila, Campylobacter Jejuni, Salmonella Enterica and Staphylococcus Aureus.

MOBILE AND EASY TO USE

The Libra only weighs in at 6kg idea and is easy to use. Ideal for use in hotels, conference centre, schools and offices. Anywhere you have a smell problem. With 6 timer positions from 1 min to 1 hour to suit the individual customer requirement

OTHER TYPICAL APPLICATIONS

The Libra is ideal for use in catering departments to clear smells in store rooms and kitchens. Ideal for coaches, caravans, trains and cruise ship operators will find it useful in removing general day to day hard to remove odours. Dog and smoke smells in vehicles can be removed in minutes, It can even clear smells from shipping containers.

Mechanical Specification

- Weight: 6kg
- Dimensions: 33cm x 20.5cm x27.5cm

Safety Features:

- Over- load current protection
- On/Off power light
- Ozone generation light
- Red fault indicator light
