

RHINO VANDAL PROOF GLASS FILLER / FAUCET KIT

**5 YEAR WARRANTY
AGAINST VANDAL
DAMAGE
WILL FIT MOST
WATER FOUNTAINS**

- Vandal Proof 316 stainless steel spout
- The water outlet tube inside the spout is protected. Removing the possibility of contamination of the water by somebody placing a mouth over the end of the spout.
- 5 year guarantee against damage to the spout. No more expensive spouts or faucets to keep changing.
- Remote adjustable flow push button control
- WRAS approved ozone resistant LLDPE tubing lines the spout assembly for easy sanitising and replacement if needed
- Can be used on standard stainless kitchen sinks.
- Kits available to convert most types of drinking water fountains to the RHINO VP faucet.
- Easy conversion from standard type faucet to RHINO VP. Can be carried out by most competent caretakers or plumbers
- Remote push button can be fitted either on top of sink, side or front of the water fountain.
- 23 mm hole has to be cut to allow fitting of push button assembly.
- Panel cutter supplied with kit including ample tubing along with connectors to fit 6mm, 8mm, 1/4 and 5/16 tubing. The normal sizes found inside water fountains

All water contact parts made from WRAS approved fittings or materials.
